EDUCATION

Computer Science

Animalar Engineering College
2023 - 2027

Class XII

Bethlahem Matric & Hr Sec School
2023

Class X

Bethlahem Matric & Hr Sec School
2021

SKILLS

Programming Languages

- Java
- Python

Web Technologies

- HTML
- CSS
- JavaScript
- Flask
- Spring Boot

Databases

- MySQL
- MongoDB
- SQLite

Tools

- VS Code
- Git
- Docker
- Android Studio
- N8N
- UiPath Studio
- IntelliJ IDEA

Soft Skills

- Communication
- Time Management
- Team Work
- Adaptability and Continuous Learning

Deva Jeshurun D C

Java Developer

CAREER OBJECTIVE

Aspiring Java Developer and final-year engineering student specializing in Computer Science, with a solid understanding of Core Java and Advanced Java concepts. Looking to begin my career in software development, continuously learn new technologies, and contribute meaningfully to a growing organization.

INTERNSHIPS

Python Backend Developer Intern JUNE 2025-SEPTEMBER 2025
Infosys I Chennai

- Gained hands-on experience in Python backend development, multithreading, and text processing. 📄
- Assisted in implementing and testing backend logic for parallel text handling and rule-based processing

Python Full Stack Developer JUNE 2025-JULY 2025
Wibits Web Solutions LLP I Kanyakumari

- Gained hands-on experience in Python full stack development, working with backend logic, database integration, and web application workflows.
- Assisted in developing and enhancing responsive web features and API-driven modules, focusing on clean implementation and user-friendly functionality.

PROJECTS

Parallel Text Handling Processor

- Developed a Python-based multi-threaded text processing system for efficient batch handling and parallel text operations.
- Implemented rule-based scoring, searchable storage, and basic analytics with an interactive Streamlit dashboard for reviewing processed text.

NutriQuest

- Developed a nutrition tracking application that retrieves food data using barcode scanning and API integration to display detailed nutritional information.
- Implemented health calculations and personalized exercise suggestions based on user inputs, providing an interactive and user-friendly experience.

CERTIFICATIONS

- Java Foundation Certification - Infosys Springboard (2025)
- Java Developer Certification - Infosys Springboard (2025)
- Python Foundation Certification - Infosys Springboard (2025)
